

Legacy Investment Mutual Funds mandate is to deliver sustainable value to our investors year after year and to support exempt market education.

With that in mind we are excited to announce that we have created an informative video about Legacy Investment that you can find on our [website](#).

As an investor, the videos provide very clear, concise overview of our business and how it works. For our business partners, the videos can be used as an additional tool when introducing Legacy Investment Mutual Fund Trust to potential clients.

We are here to answer any questions you may have after viewing the videos and can be reached at info@legacyinvestment.ca or by calling 403-359-8606.

Sincerely,

The Trust Administration Team
