

March 10th, 2026

Legacy is excited to announce we are undertaking an upgrade to our current administrative systems and approach that will significantly enhance investor usability, transparency and overall accessibility.

We have partnered with Pinnacle Fund Services to utilize their industry leading technology platform to ensure we are best in class in our support of investors, dealer representatives and exempt market dealers.

Legacy Investment MFT continues its commitment to implement systems that build investor trust, strengthen governance and create a more efficient and transparent foundation for continued sustainable growth.

Darryl Kenna, Trustee and President of the Trust
